

1 Attorney Docket No. 83438

2

3 A WINGLET FOR THE TRAILING END OF TOWED FLEXIBLE UNDERWATER LINES

4

5 ABSTRACT OF THE DISCLOSURE

6 A winglet for mounting on a trailing end of a flexible line
7 to be towed by an underwater vehicle includes an internal collar
8 member for connection to an inside surface of the line at the
9 trailing end thereof, an outer collar member for connection to an
10 outside surface of the line outboard of the internal collar, and
11 connection means for fixing the internal and outer collar members
12 to the line trailing end. A plurality of fins are mounted on an
13 outside surface of the outer collar member and extend outwardly
14 from the outer collar member.
